It is time to revolutionize your mailing with cloud based technology!

**Digital Mail Center**
Simply Prepare, Upload and Approve!

Easier, faster and less costly than doing it yourself.

With the Covid-19 Pandemic and work from home becoming the norm, now is the time to rethink how you process your mail. Digital Mail Center eliminates the need to own or lease costly machines and frees you up to focus on your core business.

**What it might look like today...**

- Get your mail ready
- Send to printer
- Sort, group and check
- Fold and insert into outer envelope
- Apply postage
- Take to the post office
- Mail is finally delivered

**What it could look like tomorrow...**

- Prepare your mail online from any device. Drag, Drop, Click and send to us!
- Assembled, produced and mailed securely for you
- Mail is delivered

---

1. Sending mail made simple-
   print or digital delivery (SMS and email)

2. Prepare your mail online from any device. Drag, Drop, Click and send to us!

3. Secure mail production, presorting and induction into the Postal Service in 24-48 hours with real time tracking

4. Pay as you go via credit card option - No prepayment required

5. Reduce spend - typical savings of 30% or more versus the total cost of in-house mail production

6. Always look for this icon to know your job is being processed with the utmost care
